

Fats Oils Grease Food Scraps...

These materials are generated
during food preparation.

They don't mix well with water.
When flushed, these materials can build up and
block the entire sewer pipeline and cause raw
sewage overflows into your home, lawns, streets,
parks and rivers ...

Don't
Get
Clogged

Creating Health Risks • Destroying the environment • Costing you money

Don't Get Clogged.

NEVER pour fats, oil, grease or food scraps into your sink, garbage disposal or toilet.
Scrape grease and food scraps from pots, pans, grills and utensils into a can and place in your garbage.

An environmental message from the City of Arlington Water Utilities Department

For more information about the proper disposal of fats, oils and grease,
go to www.ci.arlington.tx.us/water/fog
or call 817-459-6600.
